

You're holding one of the world's *most effective* Pollution Defense Moisturizers

**Our Defense+ Formulation shields your skin
from harmful pollutants and impurities,
giving you a renewed, youthful look**

According to the World Health Organization, around 91% of the world's population live in areas where pollution dramatically exceeds safety guidelines, creating an urgent need for skin care protection.

In response, Expert Remedies® has created an all-natural formulation that actively defends your skin from even the tiniest and most harmful pollutants. Consider these scientifically-verified results. **Heavy metal deposits decline on skin's surface vs. baseline:**

139% less iron

149.2% less zinc

99.8% less chrome

83.6% less nickel

This qualifies our Green Tea Pollution Defense Moisturizer as a "molecular barrier" that aggressively combats toxic deposits on the outer layer of skin.

This remarkable result was achieved by combining Green Tea (camellia sinensis), Grape seed, and Oak wood extracts in a pioneering new way.

The need for pollution protection is vital to your skin health. Consider:

VOGUE

"Toxic pollution is the biggest aggressor for aging your skin, making you look much older."

ELLE

"Pollution causes premature aging, age spots, and a dull complexion."

HARVARD
MEDICAL SCHOOL

"Pollutants can bind to your skin and weaken its protective surface."

BAZAAR^{Harpers}

"Living in a polluted area ages your skin by a year..."

The New York Times

"Air pollution causes brown spots on your skin."
