## Marine Bone Discovery

**“Helps stimulate new bone growth with 72 sea minerals and the power of the pearl”**

✓ Perfect for men and women of all ages, including those who live active lifestyles

✓ Pearl is a biomineral that increases bone density with a rare, absorbable calcium crystal

✓ Pearl helps stimulate inner bone growth in just 5 days

✓ In vitro, the Pearl acts 3.5 times faster when mineralizing bones

✓ Pearl powder is absorbed 2 times more efficiently than regular calcium carbonate

**Endorsed by a former NASA astronaut Edward Gibson**

### Expert Remedies Advantages

- Manufactured in the USA
- Clinically-studied ingredients

# “Marine Bone Discovery offers you 72 minerals and the power of the pearl”

Marine Bone Discovery has been endorsed by former NASA Scientist and Astronaut Edward G. Gibson, who conducted extensive bone research aboard America's Skylab 4 Space Station. This research was a priority at NASA because astronauts lose bone density 14.2 times greater in space than on earth.

Marine Bone Discovery is the only supplement Mr. Gibson has endorsed. He said, “No other product comes close to Marine Bone Discovery... it is a real breakthrough.”

Marine Bone Discovery assists in the stimulation of inner bone growth for bone rejuvenation, and outer bone ionic mineralization for better bone strength.

Carefully selected marine sourced ingredients include pearl powder, ionic mineral seaweed, and brown seaweed extract, which naturally help rejuvenate and restore both inner and outer bone.

Added vitamin K2 helps keep calcium out of the blood, while Vitamin D3 helps activate bone formation and mineralization.

For further information our white paper is available upon request, Marine Bone Discovery is Halal certified and NON-GMO.
